

Hey Sir, I am Akash Kumar as I already introduced my self in a given assignment video.

So for the question → why I joined this edyoda boot camp.

So, Sir I am trying my best to get placed in good company but college is not allowing me due to my 12th marks that is only 58.02% but in b-tech am having 70% above. The college is giving me opportunity also but that companies are not so good. So I had decided and promised to myself that ~~my~~ ~~college~~ my first package should be 7 to 8 LPA. and I want to show to my college that I can. That's why I decided to join edyoda bootcamp because one of my friend told about this. of having a good ~~review~~ review and now its been 1 Month teachers are really good and make me confident that I can take a good package that's all Sir
Thank you.
